

# Smykkesett

Inspiration: 1114

**1**

Pull beads onto a beading wire at your desired length. Close both ends with a bead tip and a crimp bead.

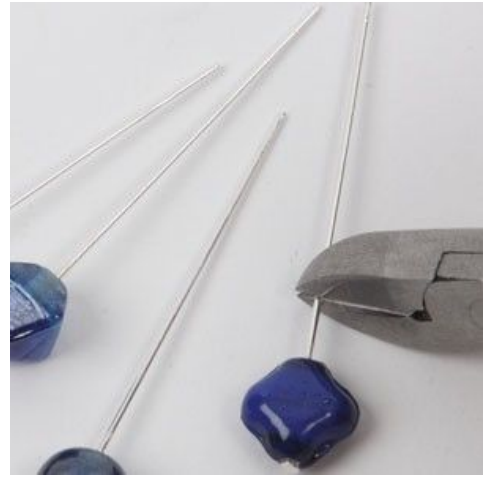

**2**

Attach the clasp with an oval ring. Put a ring in the other side.

## A Chain Bracelet

**1**

Put beads with small holes onto a head pin. Snip off some of the pin and form a loop.

**2**

Before closing the loop completely, attach this pendant to the chain.

**3**

Attach a clasp with an oval ring in one side.

**4**

Open a link in the other side and attach a tear drop end bead. Now you can vary the length of the chain.

**A Necklace**

-

**1**

Cut two pieces of leather cord and glue them in an end cap.

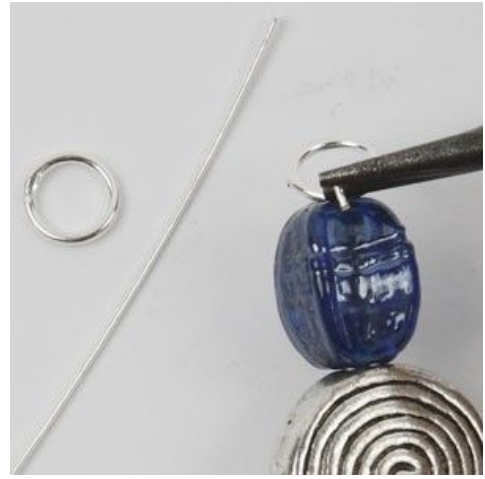

**2**

One end of a piece of beading wire is closed with a bead tip and a crimp bead. Pull beads onto the wire and close in the same way as at the beginning.

**3**

Connect the piece of beaded wire with the piece of leather cord with an oval ring.

**4**

Put beads onto a head pin. Twist to make a loop and attach a round jump ring before closing completely. Put the pendant onto the cord before connecting the other side.

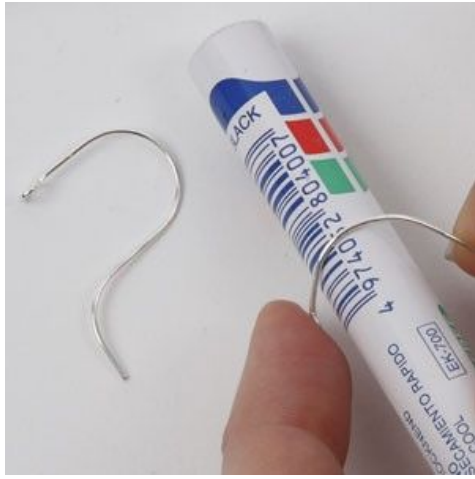

**5**

Finally attach the chain and a clasp.

**Earrings**

-

**1**

Twist a head pin around a marker pen.

**2**

Put beads onto another pin. Cut off and twist to make a loop which is then attached in the loop of the ear wire.
