

Brikke til gaver av designpapir

Brikken som kan brukes til gaver er laget av designpapir fra Vivi Gades kolleksjon. Den er satt sammen med dobbeltklebende tape og pyntet med Mønstrete Tape.

Inspiration: 13268

1.

Cut the square sheet of design paper in half. NB: the starting point of the gift box is always a half square.

2.

Assemble the halved piece of paper to form a tube using self-adhesive double-sided tape.

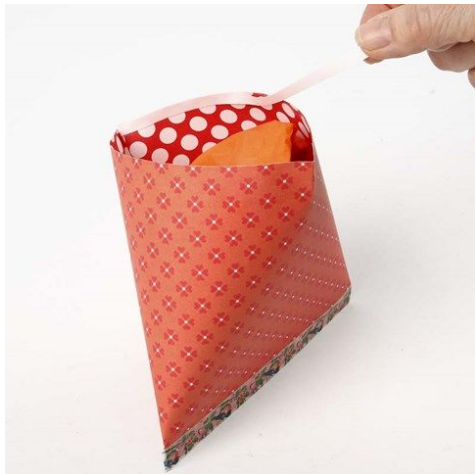

3.

Squeeze one end of the tube flat and secure with self-adhesive double-sided tape.

4.

Put Masking Tape on both sides of the now closed bottom. Make allowance for a small overlap for the opposite side for closing the box securely.

5.

Place a gift in the box and close the opening horizontally; the bottom is closed vertically. Finish with Masking Tape on both sides for decoration.
