

Tryllehatt av utstanset kjegele

Trollhatt av utstanset kartong beregnet til store kjegele og kremmerhus. Malt med A-Color metallic før den er satt sammen og strikk satt på. Pyntet med lametta og utstansede, malte stjerner limt på.

Inspiration: 13422

1.

Paint the punched-out stars and the punched-out (but not yet assembled) cone with A-Color metallic paint. Let it dry.

2.

Attach the stars onto the painted side of the cone using a glue gun.

3.

Make a lametta tassel by wrapping a piece of lametta around all the other pieces at one end. Attach the tassel onto the non-painted side of the cone, at the pointed end, using a glue gun.

4.

Assemble the cone into a magician's hat without using any glue.

5.

Attach double-sided adhesive tape along the rim at the bottom. Attach the ribbon with sequins onto the double-sided adhesive tape.

Another variant

Decorate with pom-poms.
